

# What I Dream to Be

Shubham Tiwari

February 19, 2024

## 1 Introduction

”Success in creating AI would be the biggest event in human history. Unfortunately, it might also be the last, unless we learn how to avoid the risks.”

- Stephen Hawking

Inspired by the visionary efforts of Mark Zuckerberg and Open AI and motivated by the transformative potential of Artificial Intelligence (AI), I embark on a journey as an aspiring AI engineer. In this article, I articulate my dreams and aspirations, exploring the profound impact of AI on humanity and envisioning a future where innovation knows no bounds.

## 2 My Dream

As an aspiring AI engineer, my dream is to leverage the power of Artificial Intelligence (AI) to tackle some of the most pressing challenges facing humanity. I envision a future where AI is not just a tool, but a partner in innovation, augmenting human capabilities and driving progress across various domains.

My dream extends beyond the realms of traditional engineering. I aspire to contribute to the development of AI solutions that address critical issues

such as Fraud detection, environmental sustainability, and socioeconomic disparities. By harnessing the potential of AI, I aim to empower individuals and communities, enabling them to lead healthier, more prosperous lives.

In pursuit of my dream, I am committed to continuous learning and exploration. I seek to delve into advanced machine learning algorithms, natural language processing techniques, and robotics applications to expand my expertise in the field. Moreover, I am passionate about interdisciplinary collaboration, recognizing the importance of integrating diverse perspectives and expertise to tackle complex challenges effectively.

### 3 Why I Dream to Be an AI Engineer

As an aspiring AI engineer, I am driven by a profound concern for the ethical and responsible development of Artificial Intelligence (AI). Recognizing the potential risks and benefits of AI in shaping our future, I am committed to ensuring that this transformative technology is leveraged for the greater good.

I dream of working with industry leaders like OpenAI, Microsoft, and Google to contribute to groundbreaking research and innovation in AI. By collaborating with these organizations, I aim to shape ethical guidelines and policy frameworks governing AI deployment, steering its trajectory towards positive societal outcomes.

Additionally, I envision establishing my own startup focused on harnessing AI for social good and responsible innovation. While the specifics of the startup idea are yet to crystallize, my overarching goal is to address pressing global challenges such as healthcare access and environmental sustainability through strategic partnerships and interdisciplinary collaboration.

### 4 People Who Inspire Me to Become an Entrepreneur

My entrepreneurial aspirations are fueled by the visionary endeavors of individuals who have revolutionized the tech industry and left an indelible mark on society. Among these inspirational figures, Mark Zuckerberg stands out as a pioneering force, redefining social networking and demonstrating the transformative power of technology to connect people across the globe.

Figure 3: Mark Zuckerberg

Furthermore, the groundbreaking work of OpenAI, with its mission to ensure that artificial intelligence benefits all of humanity, serves as a beacon of innovation and ethical leadership in the field of AI. The collaborative efforts of OpenAI resonate deeply with my own aspirations to leverage technology for social good and responsible innovation.

Additionally, the contributions of Python founder Guido van Rossum inspire me with their emphasis on simplicity, readability, and versatility. Python's widespread adoption and its role in empowering developers to create impactful solutions underscore the importance of fostering accessible and inclusive technological ecosystems.

## Acknowledgements

*With deepest gratitude, I extend my heartfelt thanks to my parents, colleagues and teachers who have inspired and supported me on this journey.*

*Your encouragement and guidance have been invaluable, and I am truly grateful for your unwavering belief in me.*

**Thank you.**
